Specialized Checklist

Avery Dennison (AVR) & CCL Label, Inc. Coils Die Cut 8.5 Varieties

Dear Friend Collector,

The Specialized Checklist of the AVR and CCL Coils Die Cut 8.5 will give you an orderly need-list for a specialized collection of used single Coil-stamps.

I made this checklist for my own collection. I used the Scott Specialized Catalogue of United States Stamps & Covers, open (internet) sources and own research. The list may have some minor errors or mistakes. I hope you will help me to share your knowledge to improve the checklist.

Happy Collecting,

Hans van Gils

Member of the Dutch philatelic society USCA

hvg1958@hotmail.nl

Note:

All Die Cut varieties are possible to exist on the listed stamps. They will all depend on their first being a die-cut error and then that error being found. The errors you can mark ☐ are known or it can be assumed with certainty that they exist. Others will be added when found to exist.

Please let me know when you find a new Die Cut variety.

Avery Dennison (AVR) & CCL Label, Inc. Coils Die Cut 8.5 Varieties

The figure consists of four vertical panels. The first panel, labeled 'PV', shows a dark grey substrate on the left and a light yellow material on the right, separated by a straight vertical interface. Two black arrows point from the left towards this interface. The second panel, labeled 'VP', shows the same materials but with a wavy, irregular interface. Two black arrows point from the left towards this wavy interface. The third panel, labeled 'Start', shows a dark grey substrate on the left and a light yellow material on the right, with a wavy interface. The fourth panel, labeled 'End', shows the same materials with a wavy interface, but the light yellow material is now on the left and the dark grey substrate is on the right.

Specialized Checklist

Avery Dennison (AVR) & CCL Label, Inc. Coils Die Cut 8.5 Varieties

Dramatic Shift Die Cuts

Dramatic Shifts Die Cuts are caused by die/cutting misalignment.

Dramatic Shifts Die Cuts that were reported,
 3475 21c Bison: Shallow Valley Top to PV Knoll Top
 (Coil Line 2012-9 & 10)
 3617 23c Wash: VP to Knoll Top (CL 2004-8)
 4134 (41c) Flag: Bell Bottom Left to VP (Coil Line 2009-12)

The 4389 28c Polar Bear was found in six different shifts and the
 4395 44c Flag was found in nine different shifts. (Coil Line 2010 &
 Star Flag publication 2012)

The Dramatic Shift Die Cuts are named by what we see on the left
 side of the stamp and 'to' the other left side of the next stamp.

Sometimes also called "Transition from ... to"
