	Nos. 4486-4491 (6)	9.00 1.50

Microprinting reads "4evR" on Nos. 4486-4487, "4evr" on Nos. 4488-4489, and "4EVR" on Nos. 4490-4491. The microprinting is found above the Statue of Liberty's hair, and at the bottom of the lowest red stripe of the flag.
See Nos. 4518-4519, 4559-4564.
See note after No. 1549.

WARNING: DO NOT SOAK 

Beginning with No. 1552, the first U.S. self-adhesive stamp, the symbol shown above, a black "S" inside a red circle, accompanies listings or appears in footnotes for self-adhesive stamps that will not separate from paper or otherwise do not respond well to a standard warm-water soak. In general, the symbol appears with the issue title, or on the listing line, next to the color description. The editors strongly recommend that such stamps be collected on piece.

COIL STAMPS

Self-Adhesive

multicolored 

multicolored 

36-4487

of 5, 3 #4487, 2 #4486

Wat heb je nodig

1. Zelfklevende postzegels
2. Goede gladde ondergrond
3. Wasbenzine
4. Klein bakje (voorkeur 2x)
5. Scherp puntig pincet
6. Oude (bank)pas
7. Wit A4 papier
8. Keuken- of toiletpapier

Verskil met andere methoden

Wasbenzine

Brandgevaar

Ventileren

Werkwijze

- 1. Sorteren en selecteren**
- 2. Afweken**
- 3. Drogen en opbergen**

De post

Filatelistisch plakwerk, geschikt om af te weken.

De post

Beter om de zegels
op de brief te laten.

Kilowaar

Sorteren

Sorteren

Selecteren

Tien minuten in de wasbenzine

Pincet tussen de zegel en het papier

Zegel plat houden en er niet aan trekken

Zegel los

Zegel terug in de wasbenzine

Nb. Het is eenvoudiger om met een tweede bakje te werken

Eerst alle zegels van papier af halen

En weer even terug in de wasbenzine

En weer even terug in de wasbenzine

Nb. Het tweede bakje met zegels zonder papier

Per vier zegels op gladde ondergrond en wit paper

Per zegel gom in één beweging verwijderen

Met stukje keukenpapier laatste gom verwijderen

Zegels laten drogen

Controleren of alle 'plak' weg is

Opbergen

In het album

De praktijk

1. Zelf doen.
2. Veel succes.
